**Title: Deja Vu/Parallel Universe**

**Logo: My Drawing Design**

**Homepage Introduction:**

Welcome to your dreams. Here we will discover what deja vu is and what it feels like you experienced this before in your dreams and have a reconnection in your brain telling you that you live with it. Feeling that you've been to unknown places and then in reality, you feel like you haven't been here before or something that person recognize but then they look different and in reality you know this person and it's still the same o'l friend or neighbor.

**About the Page:**

About Deja Vu/Parallel Universe Glitch that happens to most people a lot when they go to sleep and dream about what the things happen and back into reality, they experience this before or if any childhood happen back then and now your like living it again but with this feeling in your mind or nostalgic taking over. There will be two portals where one is the adult version where when you fall asleep, you get this feeling that it's repeating it again that happens in your dreams, for instance like working somewhere you haven't been or meeting new people that haven't met you before. And the other portal is where your childhood happens. As a kid, when you fell asleep, you dream about being in the fair, park or carnival place you never been and had good time, when you wake up you feel like it happen but it didn't and then going to place which is the same thing in your dream, it gets the feeling in your mind you experience this before as a kid. Almost like a memory happened before, but it happened so fast.

- The Two portals could be like minecraft where you walk in and you see yourself sleeping and what dreams you're having. And when you wake, you get this feeling that it's happened before and you're experiencing this again. Adult version and kid's version.

### **Memorial:**

Emile Boraic

Born (1851-1917)

He was one of the first to use the term "déjà vu", where it appeared in a letter to the editor of *Revue philosophique* in 1876, and subsequently in Boirac's book "*L'Avenir des Sciences Psychiques*", where he also proposed the term "metagnomy" ("knowledge of things situated beyond those we can normally know") as a more precise description for what was, then, commonly known as clairvoyance.

He was one of a group that conducted experiments on the Italian medium Eusapia Palladino. He also investigated animal magnetism, and various hypnotic phenomena such as the induction of sleep, "transposition of senses", "magnetic rapport", "exteriorisation of sensitiveness", "exteriorisation of motor nerve force" etc.

Rest in peace to Emile Boraic who was known to discover deja vu/smart philosopher.

### **Draft Materials:**

Dream Catchers to catch dreams of what you experienced and get the tension of feeling.

Two Portals to enter the dream which is Adult and Kid Version.

### **Recruitment/Membership Process:**

Try a Dream Catcher that can help protect your sleep or any bad tension of your dreams.

**\$19.95**

Fortune Teller can also help you tell what did your dreams mean to you or what have you dream of.

**\$60** to know the fortune teller of your dreams and where you've been.

**Conclusion:** The Deja Vu is connected to our brain and in our mind that when we vision the past or somewhere around present time, or even in the future, we will know what to expect and how will it happen when we experience it whether it's in our dream or something more nostalgic as childhood.

Although it will take time to experience, we will encounter the deja vu or parallel glitches that expect to come soon.
